

# Lilypond & Violin - Alignment Comparison

Different techniques for showing note names and LilyPond notation

## METHOD 1: Using instrumentName on Lyrics contexts (BEST)

Note names: G D A E  
LilyPond: g d' a' e''

## METHOD 2: Using Markup Attached to Notes

Violin

G D A E  
g d' a' e''

*Note: Markup is directly attached to each note. No separate labels possible with this method.*

## METHOD 3: Using Simple \addlyrics with Stanza Labels

Violin

Note names: G D A E  
LilyPond: g d' a' e''

## METHOD 4: Using Stacked Markup Below Staff with Labels

Violin

Note names: G D A E

LilyPond: g d' a' e''

*Note: Manual spacing with \hspace - alignment depends on font metrics and may not be pixel-perfect.*
